SAMVARDHAN

Breed Preservation

In alignment with the sustainability principle, our goal is to guide villages toward economic self-sufficiency through agriculture & cottage industry, providing training in organic farming, breed preservation & the principles of good governance. Bhavyata Foundation is dedicated to reinforcing breed preservation for the betterment of India's dairy industry.

DANGI BREEDS SURVIVAL

SAMVARDHAN, through its 'Sowing the Seeds' initiative, aids gopalaks in preserving indigenous breeds amid challenges posed by limited grazing pastures and inadequate feed resources.

FEED DISTRIBUTION

Amidst the scorching summer heat and scarce resources, we've stepped in to support cows in need by distributing 0.8 tons of dry nutritional fodder.

GOPALAKS SUPPORTED

8 Gopalaks and 280 bovines benefitted, resulting in increased milk production after consuming nutritional feed. The Gopalaks then process the milk into condensed form sold in the marketplace, providing livelihoods.

Preschool Education - Aarambh

Bhavyata Foundation, through the AARAMBH project, is proud to announce that we are entering our sixth year of providing preschool education in BMC and MPS schools across Mumbai. Over these years, we have nurtured early childhood education for more than **5000 children**, preparing them for formal schooling and empowering them to become responsible citizens of our nation.

HOLISTIC DEVELOPMENT

We aim to nurture children's cognitive, physical, social, emotional, and creative skills in BMC and MPS preschools. Through a diverse curriculum and engaging activities, we ensure comprehensive development during their formative years.

SCHOOL READINESS

We prepare children for formal schooling by instilling foundational skills and a passion for learning. Equipping them with necessary tools and confidence, we facilitate a smooth transition into primary education, setting them up for success academically and socially.

COMMUNITY ENGAGEMENT

We involve parents, teachers, and the local community in preschool education. Through collaborative partnerships, we create a supportive environment that enhances children's overall educational experience and fosters their growth.

SCHOOL OF SUSTENANCE

PLANT A CARETAKER

"Plant a caretaker" suggests nurturing someone responsible for caring for others or the environment. It's about fostering compassion and stewardship for a sustainable and equitable future. We donated **1000 Moringa saplings** to the farmers in the Wada belt facilitated by **the Keshav Shrushti gram vikas yojana; the farmers who planted saw favourable sapling growth in less than a year and will nurture them further.**

Around **50 farmers** benefitted from this cause.

The moringa plant will bear fruits, and selling these fruits brings additional income to rural households. Such a big project brings a sense of togetherness and unity to the community.
